

New SmartTrack | Stations

The City, Metrolinx and TTC are working together to bring more transit to communities across the City. In March, we will be hosting public meetings to provide information about the new SmartTrack/GO stations being planned in Toronto and to get your feedback.

The new SmartTrack/GO stations build upon Metrolinx's Regional Express Rail program, which includes increased service on five (5) of the existing GO rail corridors.

Within Toronto, six (6) new SmartTrack stations are planned for the Stouffville/Lakeshore East and Kitchener corridors and two (2) new GO stations are planned for the Barrie corridor.

The City and Metrolinx are following the Transit Project Assessment Process (TPAP) under Ontario Regulation 231/08 to assess the potential environmental effects of the new stations and recommend mitigation measures. At this round of public consultation, we will provide an update on the project, seek your input on the environmental studies that have been prepared.

HELP PLAN TRANSIT IN TORONTO

THURSDAY MARCH 1, 2018

Lithuanian House
1573 Bloor Street West
